SOLICITATION DACA01-02-R-0003 -QUESTIONS AND ANSWERS

1. In the above referenced solicitation, Section L, page 12, it states that 8½ x 11 sheets are required for this proposal.

Question: Does that specifically rule out using 11 x 17 sheets?

Answer: No, 11 x 17 sheets may be used if necessary to maintain legibility of drawings or other graphics.

2. Section L, g. Pricing (6) - Requirement is to include the subcontractor handling fee as a percentage in Volume III - Pricing.

Question: Should this also be included in Section B Pricing? There is no blank to insert the percentage.

Answer: No, it is not necessary to include the subcontractor handling fee in Section B. The subcontractor handling fee (percentage) shall be included in Volume III – Pricing, and the fee and rationale used in the development thereof shall be shown in Volume II – Management, as described in Section L, page L-16, subparagraph (d) Cost Control.

3. Requirement to perform 51%. Requirement has been removed from most of the solicitation. However, under Section C, 1.0 Objective; last sentence still has a requirement. In addition, Section L,e.- Technical, Volume I, (2) (b) 1 and 2, requirement exists for examples of past projects (51% or more). This is no longer pertinent.

Question: Will these requirements be deleted?

Answer: Requirement will be removed from section C, paragraph 1.0 Objective, last sentence by Amendment 0001. Section L requirements, for clear identification of project examples performed mainly by subcontractors, will remain. The requirements in Section L will establish the offeror's capability to perform the work in the manner proposed and historical examples of that capability.

4. **Question:** Could you please give a little more detail as to the quantity and locations of medical and support facilities for this Contract. We hope to get city locations and approximate number of task orders within each vicinity.

Answer: The solicitation is for support of US Army Medical Command facilities in the geographic regions listed in the solicitation. Execution of project task orders is subject to funding availability and regional prioritization. Additionally, the awardee will not be the only contract vehicle available to accomplish this type of work. So, in summary, if you are responsive, and your pricing is competitive, you will probably get a share of the work funded. Task order volume and location is impossible to predict.

5. **Question:** What is the expectation of percentage, by zone, within this contract?

Answer: See Answer to 4 above – impossible to predict.

6. **Question:** Please verify that pricing is not expected in the base year and options years for line items 0009, 0009a, 10 & 11, found in the Schedule B chart on page B-8.

Answer: As stated on page B-0, Executive Summary, paragraph 8 - prices shall be provided for all LABOR line items in the schedule. Further, the Schedule B that should be used for submission of your prices is the separate Excel Spreadsheet format. The cells for the referenced CLINS are protected and will not allow entries.

7. **Question:** Please verify that pricing is not expected in the Option Years for the same line items, found on pages, B-25 (Option Year 1), B-42 (Option Year 2), B-59 (Option Year 3), and B-76 (Option Year 4).

Answer: Same as above.

8. **Question:** Will there be any amendments to the Mobile proposal?

Answer: Amendment 0001 will be posted to the Internet on 16-Nov-01.

9. **Question:** Please explain why there is no Service-disabled Veteran Owned or Veteran Owned Small Business requirement for the above referenced project. Is there an Army directive that supersedes Public Law 106-50, and Public 85-536, as amended?

Answer: See Amendment 0001.
